

3 Scotch-Brite™

White Pre-Cut Roll

Ref 690

For cleaning delicate surfaces

Technical Data

TD 259 - Date : August 2011

Author : FG

Description :

The product is a pre-cut roll of 40 white cleaning hand pads. The non woven web is made from synthetic fibers impregnated with a durable polymer containing specific cleaning particles for light duty cleaning operations of delicate surfaces.

Properties :

- Excellent cleaning /scrubbing performance for light duty tasks.
- Will not produce scratches on most fragile surfaces.
- Flexible, allows cleaning in corners and hard-to-reach areas.
- Open web structure, easy to rinse out.
- Stands most common cleaning chemicals.
- Long lasting.
- Active performance throughout hand pad life
- Easy to use: pre-cut pads.
- Hygienic, roll protected by a plastic film

Where to use :

The product can be used in kitchens, commercial and education buildings as well in industrial applications, to clean a large variety of surfaces like metals, doors, baseboards, tables, walls; dishes, pans, cooking plates, ceramic cooking surfaces, roasting equipments and most of kitchen utensils (glass, aluminum or stainless steel).....

The white Scotch-Brite™ Ref. 690 web has low scratching power and is recommended for fragile surfaces.

Note : Always test on a small area.

How to clean the pad :

Rinse the pad with clear water after each use.

When necessary, remove embedded particles with a nylon brush or leave the pad in a cleaning solution to dissolve burnt food residues.

Features :

Property	Nominal value
Total weight	415 g/sqm
Thickness	9,0 mm
Sizes :	
Width	200 mm
Length	100 mm
Colour	White
Abrasion *	0g removed
Composition	Nylon Fibers Synthetic resin and particles

(*) Schiefer test on acrylic plate (after 5000 revolutions with a new pad)

Product Origin :

Made in 3M France in an ISO 9001:2008 and ISO 14001:2004 certified plant..

Source of Supply:

3M France - SOA
